

Gastroenterology EHR Software

Our strong focus on gastroenterology and our unique ability to customize and adapt to your specific practice workflow makes MediTouch a great choice for any gastroenterology practice.

MediTouch Gastroenterology EHR

The MediTouch gastroenterology EHR software comes pre-loaded with templates that let you quickly and easily chart on the go. The user friendly interface is customizable to fit your specific gastroenterological needs. MediTouch EHR also offers eloquent integration with billing and patient management – so you don't have to bite off more than you can chew.

Gastroenterology Features

- **Care plans for common gastrointestinal disorders**
- **Chief complaints including pre- and post-procedures like endoscopy, screening and diagnostic colonoscopy, cholecystectomy, hemorrhoidectomy and hernia repair**
- **Procedure note for gastric band adjustment**
- **Import patient medication history**
- **Order and track lab test panels**

Gastroenterology EHR Care Plans

A Care Plan is a pre-formatted, fully customizable interface that is used to document your treatment objectives and goals regarding a specific diagnosis. Meaningful Use Stage 2 requires this documentation, when applicable, in each encounter note, and with MediTouch we make it simple.
