

## Geriatric Medicine EHR Software

Our strong focus on geriatric medicine and our unique ability to customize and adapt to your specific practice workflow makes MediTouch a great choice for any geriatric medicine practice or nursing home.

### MediTouch Geriatric Medicine and Rehab EHR

Unlike other EHR software, MediTouch EHR understands the daily challenges for patients and physicians in geriatric medicine and long term and post-acute care (LTPAC). MediTouch geriatrics EHR software platform is elegantly integrated with HealthFusion's Practice Management and Clearinghouse solutions, optimizing the physician experience as well as streamlining registration, scheduling, claims, billing, and collections for your staff.

### Geriatric Medicine Features

- **Checklist to assist with the client success with Medicare's Annual Wellness Visit**
- **Meaningful Use optimized out of the box**
- **Integrated ePrescribing system**
- **Patient medical history available at the tap of a fingertip**

### Physical Geriatric Medicine EHR Care Plans

A Care Plan is a pre-formatted, fully customizable interface that is used to document your treatment objectives and goals regarding a specific diagnosis. Meaningful Use Stage 2 requires this documentation, when applicable, in each encounter note, and with MediTouch we make it simple.
