

## Infectious Disease EHR Software

Our unique ability to customize and adapt to your specific workflow makes MediTouch a great choice for any infectious disease clinic.

### MediTouch Infectious Disease EHR

MediTouch infectious disease EHR offers an iPad native, intuitive interface at the touch of a fingertip – so patient care can remain your primary focus. Designed to function like a doctor, MediTouch goes above and beyond what competitors have to offer in the field of infectious disease EHR software.

### Infectious Disease EHR Features

- Care plans for common infectious diseases
- Track and compare lab results in chart or graph format
- Access charts at the point of care
- Integrated EGR system for built-in Meaningful Use
- Import patient medication history
- Non-obtrusive reminders for preventive care

### Infectious Disease EHR Care Plans

A Care Plan is a pre-formatted, fully customizable interface that is used to document your treatment objectives and goals regarding a specific diagnosis. Meaningful Use Stage 2 requires this documentation, when applicable, in each encounter note, and with MediTouch we make it simple.
