

## Internal Medicine EHR Software

Our strong focus on internal medicine and our unique ability to customize and adapt to your specific practice workflow makes MediTouch a great choice for any internal medicine practice.

### MediTouch Internal Medicine EHR

As an internal medicine physician, your main focus is patient care. Our Internal Medicine EHR software was designed to automate your practice and help you spend more time with your patients. A versatile medical specialty needs a versatile EHR, which is why MediTouch is easily customizable to suit the needs unique to the internal medicine practice.

Whether treating a simple flu or helping a patient manage their diabetes, MediTouch Internal Medicine EHR software goes where you go, and helps ensure a patient-friendly, safe, and efficient care. Use the intuitive touchscreen interface to chart and compare results, order lab results, and monitor your patient flow.

## **Internal Medicine EHR Features**

- **Internal medicine health maintenance alerts**
- **More than 300 chief complaints**
- **Nearly 300 care plans**
- **Procedure notes for office procedures, including skin biopsy and incision and drainage (I&D)**
- **Adapts to your charting workflows**
- **Simple customizing**
- **Start charting the first day you log in**

## **Internal Medicine EHR Care Plans**

A Care Plan is a pre-formatted, fully customizable interface that is used to document your treatment objectives and goals regarding a specific diagnosis. Meaningful Use Stage 2 requires this documentation, when applicable, in each encounter note, and with MediTouch we make it simple.
