

MediTouch Nurse Practitioners EHR – First Choice For NPs

You've charted the same way for years and you still can with the customizable MediTouch Nurse Practitioners EHR software.

Helping patients is your mission, helping you do that is ours.

You don't need an engineering degree to make MediTouch speak like you do, just use our simple customization wizards. Leverage the cloud to facilitate secure collaboration with your peers. Easy to use co-management tools make MediTouch the perfect choice for Nurse Practitioners and other healthcare providers.

- Integrated EHR, Billing and Patient Portal
- U.S. Based J.D. Power and Associates Award-Winning Support
- Free training, Support, Maintenance, Updates & Back-ups
- Mobile iPad Charting and Smartphone Prescribing
- Secure email and messaging built-in
- 2014 Meaningful Use Certified for Stage 2

As a Family Nurse Practitioner I needed an EHR that was affordable, one that allowed me to focus on my patients – MediTouch is that EHR. To use it is to love it.”
