

Sports Medicine EHR Software

Our strong focus on sports medicine and our unique ability to customize and adapt to your specific practice workflow makes MediTouch a great choice for any sports medicine physician.

MediTouch Sports Medicine EHR

When dealing with prevention and treatment of sports related injuries, it can be challenging to find an EHR that understands the importance of focusing on the patient first. Created by doctors for doctors, MediTouch represents a new ball game in sports medicine EHR software – with features specific to sports related medicine. For the patient always on the run, the MediTouch sports medicine EHR interface is designed to work right off the bat to help maximize physical health outcomes.

Sports Medicine EHR Benefits

- Quickly access charts, schedules, and patient reports
- Automatic Meaningful Use integration
- Award-winning features and customer service

Sports Medicine EHR Care Plans

A Care Plan is a pre-formatted, fully customizable interface that is used to document your treatment objectives and goals regarding a specific diagnosis. Meaningful Use Stage 2 requires this documentation, when applicable, in each encounter note, and with MediTouch we make it simple.
