

Software as a Service – Medisoft Clinical or Practice Partner

Why Choose Medisoft Clinical in a Hosted Environment?

Our Mission

Sunrise Services and our partners at McKesson have dedicated our careers to improving healthcare. We provide technology and Services that reduce costs, reduce errors and make an impact on quality of patient care.

Well Established Company

Sunrise Services founded in 1996 has grown from a single employee to a full time staff of 12. We currently service over 3500 healthcare providers nationwide, providing software, support, and IT. Our partner McKesson founded 176 years ago is a worldwide healthcare provider of medical, surgical and pharmaceutical supplies and is publically traded on the NY stock exchange as MKC.

Advantages of Hosted Solution

1. Lower initial cost - No server required for a web based application. Workstations requirements are not as strict which means huge savings on hardware.
2. No Upgrades to worry about – Sunrise maintains all updates and upgrades as part of your monthly subscription fee.
3. Access from anywhere – if you can access the internet you can connect to your Medisoft Clinical or Practice Partner application.
4. Dedicated Servers
5. Server Maintenance – practice doesn't need a server so IT cost are lower which lowers the initial cost as well as yearly operating expenses.
6. Data Security – data mirror onto a hard drive every half hour. Nightly backups sent to a storage device.
7. Business Continuity – Nightly backup sent to two secure off site locations guaranteeing business continuity.(Stimulus Requirement).
8. Redundant Power Supplies – battery back up and standby generator power supplies.
9. Application hosted at a secure data center.
10. High speed connectivity - 100 megabytes/second with three redundant connections
11. World class support.
12. McKesson Certified trainers.
